

sunlight  
as  
the  
understanding of the world

in the dripping sunlight  
the i  
is no more than  
a little shrub

golden sunlight in layers  
everything is alright

a thin  
monument  
must be

the same sunshine

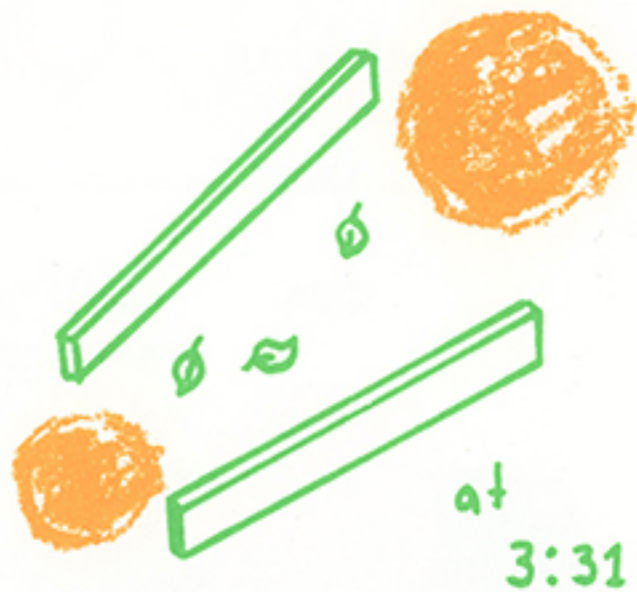

that implies nothing

to spend twenty-odd years  
on mown lawn  
catching  
the  
sun

twelve miles  
into the sun

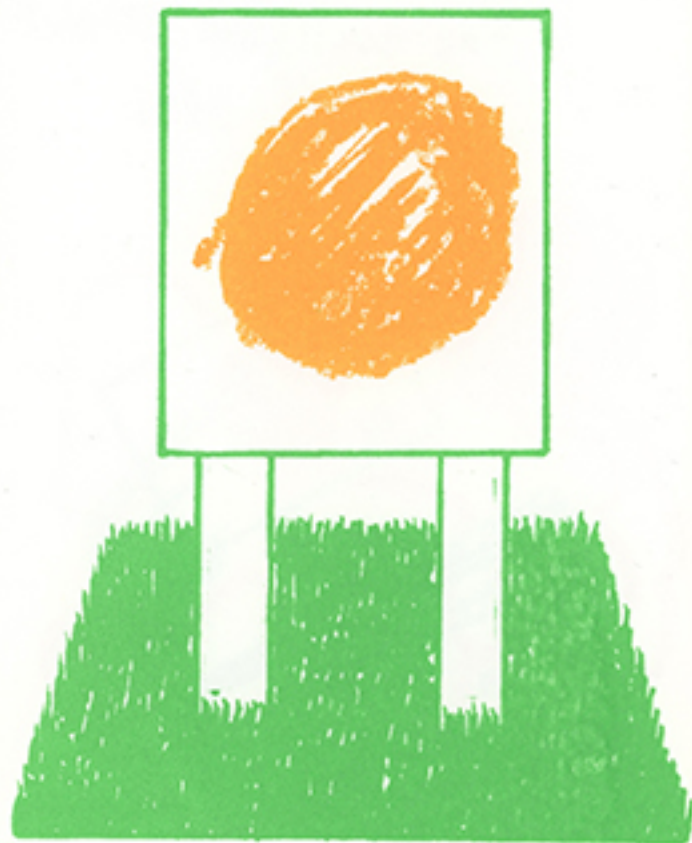

in the afternoon

the sunlight

in the emptiness

before the color of sunshine

bill's benevolent association
